## Our Business Areas

### Water and Environmental Sanitation

*Water is the basis of life. Many children's health, education, development, and well-being suffer due to the scarcity of water resources and difficulty to access safe drinking water in most regions of Yemen.*

*Seyaj seeks to "ensure availability and sustainable management of water and sanitation for all," including children. It is also critical for Seyaj to target the needs of women and girls living in fragile situations, and raise local community awareness to ensure the sustainability of safe drinking water and mitigate pollution and inaccessibility.*

*\*Goal 6 of the Sustainable Development Goals 2030*

## Our Business Areas

### Community Empowerment

*Seyaj works to increase the local community's capacity to self-recover, improve livelihoods, and bolster the participation of marginalized groups, such as women and youth, in sustainable development and peace-building. Seyaj also strives to encourage the existence of peaceful and inclusive societies, civil organizations, and youth initiatives*

*It is critical to increase the capacity and awareness of justice institutions enforcing the law, particularly in the poorest areas—targeting the displaced and people with special needs—and to strengthen the rule of law and access to justice to improve preventive protection for children and reduce all forms of exploitation, human trafficking, and violence against children .*

*\* Goals 5 and 16 of the Sustainable Development Goals 2030*
